- Dimensions in mm. (WxHxD): 28x59x92
- Weight in grams: 92
- Input Voltage: AC 100-240V 50/60Hz 0.6A
- Output current: max. 4.5A
- USB ports: 4 x 5V 2.1A(max.)
- Power usage stand-by: 0.2W
- Power usage max.: 30W

DESCRIPTION

Charge up to 4 USB devices, like tablets and smartphones, at the same time with the EW1216 4-Port USB charger. The Smart IC charging system distributes the available current between the connected devices. Besides that, the smart charger recognises the required current per device. Your tablet and smartphone will be charged with just the right amount of power. The charging will stop when the device is fully charged. The EW1216 has over temperature protection, over voltage protection, over current protection and short circuit protection.
